## Southern California Childcare Resources List

We know the closure of schools and daycare centers, along with "shelter at home" orders have created a scarcity in childcare resources. This situation places immense pressure on essential workers – like Kaiser Permanente employees and physicians – to find alternative childcare resources because they must continue reporting to work. Our Employee Assistance Program team has gathered a

list of possible care referral sources that may help our people. Please share this information broadly with those who may not have email access.

**Child Care Aware** is a site where you can plug in your ZIP code and your local child care resource and referral will pop up. Should the agency receive a call from a family that isn't in their area, they'll direct them to the correct service area.
