

Definition of Consensus

KPNAA's definition of consensus is defined by the LMP understanding – I will give it a try – I've been heard, I will support this idea even it is not my first choice, and I will work to implement it – you might not like it, but you can live with it – not a number; it's 100% say I agree with it and can go with it with the group.

Consensus is maintained throughout the course of the year and is revisited annually.
